

Keeping You and Our Workplace Safe

Actively screening all patients: All patients will be asked a series of questions related to COVID-19 before entering our waiting rooms.

Enforcing social distancing: We are asking all patients to respect the 2m social distancing recommendations.

Mask requirements: Masks are mandatory while inside all Valley Medical Laboratories locations including while checking in and sitting in waiting rooms.

Booking tools: We encourage patients to use our net check-in or to book an appointment at select sites prior to visiting.

PPE: Proper personal protection equipment will be used by employees at all locations including but not limited to: plexiglass barriers, eye protection, gloves, gowns and masks per the recommendations from the Public Health Agency of Canada (PHAC), BCCDC, and Interior Health (IH).

Hand hygiene: We are requesting that all patients sanitize their hands upon arriving to prevent the transmission of COVID-19.

Increasing cleaning protocols: Increased cleaning frequency throughout our Patient Service Centers and Testing Facilities.
